Please Note: In order to get the most out of this class it really is important to come to class with the supplies listed. **The most vital part of machine quilting is a sewing machine in good working order and the right attachments! Please test your new attachments before class. If they don't fit, you won't be able to enjoy the class!**

Another Note: We will need 1 ironing station for about every 4 students.

One Last Note: If you arrive in class before me, please don't set up your machine. We won't need it right away and we'll need the space to baste our quilts.
